

SILO ACCESSORIES

MANHOLES

Material:	For items without material data, all parts are made of AlMg3, AlMgSi or Stainless Steel.
Standard accessories:	Accessories always include installation.

Design example

Description	Article no.	
Roof manhole		
DÖKE 5/6	Roof inspection hole DN 500/600 with swiveling ventilation hood	DÖKE 5/6
DÖK 5/6	Roof manhole DN 500/600 with swiveling cover and quick-release fasteners	DÖK 5/6
DMK 8	Roof manhole DN 800 with swiveling cover	DMK 8
Shell manhole		
MMV 5/6	Shell manhole DN 500/600 with displacement body to prevent product deposits, shell manhole cover with displacement device is completely removable *	MMV 5/6
MMVD 5/6	Shell manhole DN 500/600 with displacement body to prevent product deposits, shell manhole cover with displacement device is completely removable* incl. davit that can be swiveled	MMVD 5/6
MMI 5/6	Shell manhole 500/600 with cover opening inwards *	MMI 5/6
AB 5/6	Deflector plate over manhole to prevent product deposits	AB 5/6
KÖ 68.46	Cone assembly opening with screwed cover, inner width 680 x 400, 600 high, opening inwards *	KÖ 68.46
VS 010	Padlock for DÖK, DMK, MMI, MMV	VS 010
Safety grid for operational inspection in roof manhole and assembly opening		
SR 5	Safety grid DN 500	SR 5
SR 6	Safety grid DN 600	SR 6
SR 8	Safety grid DN 800	SR 8
*) In Germany not allowed for operational inspection All measurements in mm.
